NANDHINI S

Aspiring Software & AI/ML Developer

Phone: 6379929322 | Email: nandhiniraja1707@gmail.com

linkedin.com/in/nandhini-s-0769b8344 | github.com/nandhinisraja

TECHNICAL SKILLS

- Programming: Python, Java, C
- Database: SQL
- Web: HTML, CSS
- Core Areas: AI/ML, Cyber Security, Cloud Computing
- Tools & Platforms: Microsoft Azure (Basics)

SOFT SKILLS

- Communication Skills
- Team Collaboration
- Problem-Solving Ability
- Time Management
- Adaptability

CERTIFICATIONS

- NPTEL – Database Management System
- NPTEL – Foundation of Cloud IoT Edge ML
- NPTEL – Programming in Java
- Infosys Springboard – Basics of Python
- Infosys Springboard – Python Concurrent Programming
- Wadhwani Foundation – Employability Skills (JobReady)
- Coursera – Fundamentals of Java Programming
- Cyber Security Internship Certification
- AI Azure Internship Certification
- AI/ML Internship Certification

EDUCATION

B.E. – Computer Science & Engineering
Panimalar Engineering College · 2024–2028

HSC – 82%
MLM Mamallan Matric. Hr. Sec. School · 2024

SSLC – 86%
MLM Mamallan Matric. Hr. Sec. School · 2022

CAREER OBJECTIVE

Motivated second-year B.E. Computer Science and Engineering student with foundational knowledge in programming and hands-on exposure to internships in Cyber Security, AI/ML, and Cloud technologies. Eager to enhance technical skills, gain practical experience, and contribute effectively in learning-oriented environments.

INTERNSHIP EXPERIENCE

Cyber Security Intern | Zapsters Software Solutions
Dec 2025 – Jan 2026

AI/ML Intern | TANSAM (in association with Siemens & TIDCO)
April 2025

AI Azure Intern | Microsoft Initiative (Edunet Foundation – AICTE)
May 2025 – June 2025

Power BI Data Visualization Intern | Virtual Internship
Dec 1, 2025 – 6 weeks · Remote

PROJECTS

Sahaay – Multilingual Community Support Finder
Multilingual web app helping underserved people find nearby resources such as healthcare, education, food, shelter, disability support, and employment. Built with React, Vite, Express.js, Flask, HTML, CSS, and JavaScript.

AI Shield – AI Agent Security & Risk Assessment System
Monitors AI-agent actions and analyzes context, evaluating risk using rule-based and ML-based approaches to provide explainable security decisions.

SpamShield – SMS Spam Detection System
Web app that classifies an entered SMS as Spam or Not Spam using a Flask backend and ML-based NLP text classification.

Breast Cancer Prediction using Machine Learning
CNN and Flask based prediction system that analyzes medical images and returns results through a web interface.

Blood Donation Website
Designed and developed a website to connect blood donors and recipients.

Smart Spy Ghost Camera
Covert surveillance device using miniaturized high-resolution sensors and Wi-Fi/Bluetooth connectivity to capture and stream video discreetly. Features infrared night vision, motion detection, loop recording, and AI-based smart alerts, with secure encrypted data storage concealed within everyday objects.

TECHNICAL EVENTS & ACHIEVEMENTS

- Participated in “Ideate” (Cyber Security themed) technical event, Amrita College
- Participated in “Build.it” on Unstop, organized by Bal Bharathi Public School
- Secured 2nd place in project presentation, Adhi College
- Participated in a hackathon at Saveetha Engineering College
- Attended paper presentations at Velammal Engineering College and Dhanalakshmi Srinivasan College
